DESIGN

- I am a huge fan of minimalist design and wanted to incorporate that into my website.
- The website uses single column layout for mobile and a mix of expanded single column and double column layout for desktop
- This ensures that the focus of the user is always on the content and it's easy to read.

COMPONENTS

- Resume button is front and centre on the index page and draws in the eyes of users.
- The footer is prominent and allows users to quickly find relevant links
- Responsive mobile menu for easy navigation on smaller devices.

TECH STACK

- HTML
- CSS
- Visual studio code
- Balsamiq (wireframes)
- Lucidchart (sitemap)
- netlify (deployment platform)
